SUMMARY

I'm a passionate **Frontend Developer** who started programming journey in 2024. I specialize in creating responsive and user-friendly web applications with modern tools like **React** and **Tailwind CSS**. I enjoy crafting clean and efficient designs, solving real-world problems, and continuously learning new technologies. Outside of programming, I love playing football, reading tech blogs, and exploring photography.

SKILLS

- **Programming Skills :** Html, CSS, Tailwind CSS, Javascript, React.js, Firebase Authentication, Node.js, Express.js and MongoDB.
- **Tools :** VS Code, Github, Git, Postman, Vercel, Netlify, Figma.
- **Languages :** Bengali, English, Hindi.

PROJECTS

Edu-Station 🔗
Education Management System
- A web app for Education Management with real-time availability and a **Mern stack** project with **CRUD** operations.
- Implemented user authentication (signup, login, update profile, forget password) with secure **JWT**-based access.
- Built using **React.js, Express.js** and Database using in **MongoDB**. Deployed on client side **Firebase** and **Netlify** and server side deployed on **vercel**.
- Also integrated payment method by **Stripe**. Student are enroll class and take Assignment provide a class Teacher.

Hotel Booking System 🔗
Hotel Silkcity
- A modern, full-featured Hotel Booking web application built with **React** and **Express.js**.
- This platform enables users to browse, filter, book, and review hotel rooms with ease.
- It combines sleek design, secure authentication, and intuitive features to provide a seamless user experience.
- Display reviews sorted by latest (descending timestamp), Booking cancellation is restricted to 1 day before check-in using **Moment.js**.

EDUCATION
